American Indian or Alaska Native, non-Hispanic	DNR	DNR
Asian, non-Hispanic	DNR	DNR
Black, non-Hispanic	DNR	DNR
Hispanic	DNR	DNR
White, non-Hispanic	63.7	57.0-69.9

Data Source: National Immunization Survey - Teen (NIS-Teen)

Percentage shown is a point estimate. Vaccination coverage estimates include only adolescents who had adequately complete provider-reported immunization records.

Includes percentages of adolescents receiving one or more dose of tetanus toxoid, reduced diphtheria toxoid, and acellular pertussis (Tdap), or tetanus-unknown type vaccine.

Adolescents in the 2009 NIS-Teen were born during January 1991 - February 1997. Adolescents in the 2010 NIS-Teen were born during January 1992 - February 1998.

95% CI = 95% confidence interval (CI).

Race and Ethnicity are reported by respondent. Adolescents of Hispanic ethnicity may be of any race. Native Hawaiian or other Pacific Islanders and persons of multiple races were not included because of small sample sizes.

DNR: Data Not Reliable. Data is not provided if the unweighted sample size for the denominator was <30 or (CI half width)/Estimate > 0.6.
